

LIST OF CURRENT CLAIMS

1. (Currently Amended) A garden building comprising of:

a base frame ~~whereby said base frame consists of~~ comprising base ring beams that are connected together to form an enclosed frame of ~~any~~ a polygonal shape;

a plurality of sidewalls comprising ~~compose of~~ a plurality of wall panels with a plurality of dowels ~~on both end~~ extending from opposed ends of each said wall panel;

at least one door mounted at one side of the building;

a top frame ~~whereby said top frame~~ having an enclosed polygonal shape that is isometry with said base frame, with said top frame ~~being made up of~~ comprising a pair of opposing side ring beams, said side ring beams ~~are being~~ connected together by at least one pair of triangular frames at spanning the ends of said side ring beams; and

at least one pair of roof pieces ~~are~~ supported on inclining sides of said triangular frames ~~by means of frames built on each said roof.~~

2. (Currently Amended) The garden building as claimed in claim 1, wherein said base frame is rectangular ~~where~~ and the length and width of said base frame corresponds to the length and width of the garden building.

3. (Currently Amended) The garden building as claimed in ~~any~~ claim 1 ~~to 2~~, wherein said base ringbeams, said side ringbeams and a first one of said triangular ~~frame frames~~ frames ~~designated henceforth as first triangular frame, that are~~ located at said sidewalls of the garden building have matching holes located therein ~~thereon~~ for receiving said dowels to ~~be inserted~~ thereby enable forming said sidewalls by interconnection of said wall panels with said base ringbeams, said side ringbeams and the first triangular frame mentioned herein.

4. (Currently Amended) The garden building as claimed in ~~any~~ claim 1 ~~to 3~~, wherein said door ~~compose of~~ comprises a plurality of door panels covering an opening in ~~on~~ said sidewalls, whereof said opening comprises a side ~~are sides~~ of the garden building

that has no said side panel panels.

5. (Currently Amended) The garden building as claimed in ~~any~~ claim 1 ~~to 3~~, wherein ~~any particular~~ said base side and top ring beam beams, ~~that is referred to, particularly~~ ~~ring beams belonging~~ whether associated with to said base frame or said top frame, ~~has its ends~~ are connected to ring beams next to them it to form said base frame or said top frame.

6. (Currently Amended) The garden building as claimed in ~~any~~ claim 1 ~~to 5~~, wherein said opening is ~~are~~ on a front side of the garden building.

7. (Currently Amended) The garden building as claimed in any claim 1 ~~to 6~~, including weather seals wherein ~~beams~~ between adjacent ~~one said side panel panels with~~ another ~~said side panels~~; and between said side panels and said ring beams; and wherein said triangular frames are sealed with weather seals.

8. (Currently Amended) The garden building as claimed in ~~any~~ claim 1 ~~to 7~~, wherein said frames of each roof have a plurality dowels which are inserted into holes on said inclining sides of the triangular frames.

9. (Currently Amended) The garden building as claimed in ~~any~~ claim 1 ~~to 8~~, including wherein a ridge capping connected to the tops ~~is placed on top~~ of the peaks of said triangular frames.
